While Europe wars, let America work

We have a new tariff, lower than any in recent years. Yet imports have fallen off ten million dollars in a month.

We have a new banking law, designed to put us beyond the reach of panic. Yet every stock exchange in the countrywith two or three exceptions—is closed. We have been blessed with the greatest crops in the history

of the United States. Yet the price of wheat is higher than at any time in the last 16 years. In view of these things, are we overstating the case when we say that in the last two months the world has been turned

> Will you pardon us if we ask you if you have adjusted yourself to this new condition? Are you going after markets-not only abroad, but right

here at home-which Europe has abandoned? While Europe wars, let America work

Now, of all times, is the time to have every detail of your business at your fingers' ends

- to inaugurate a new system of sales-records that will be of
- as much service to you as a map is to a commander-in-chief. - to place your system of filing on a basis that makes your
- business data instantly available. - to substitute card ledgers for book ledgers, thus simplifying and bettering your bookkeeping department.

- to put in operation a better method of keeping trackof stock, so that you will know just where you stand at ALL times.

Gladly will we co-operate with you. For nearly 40 years we have been brought in contact with the keenest business minds in the country. And we should like nothing better than to apply our knowledge of card and filing systems to the better-

ment of your business. Take, as an example, our new method of filing-the "Automatic Index"-- a method that indexes itself, checks itself, is wonderfully quick and amazingly correct. Details on request.
